COUNTRY Germany (Russian Zone)
SUBJECT Radio Installation on a House Between
Warnemuende and Markgrafenhofde

DATE DISTR. 15 November 1950
NO. OF PAGES 1

PLACE ACQUIRED
DATE OF INFO.

NO. OF ENCLS. 1 Annex
(LISTED BELOW)
SUPPLEMENT TO 50X1-HUM
REPORT NO.

THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE
OF THE UNITED STATES WITHIN THE MEANING OF THE ESPIONAGE ACT OF
U.S.C. 81 AND 82, AS AMENDED. ITS TRANSMISSION OR THE REVELATION
OF ITS CONTENTS IN ANY MANNER TO AN UNAUTHORIZED PERSON IS PROHIBITED
BY LAW. REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

50X1-HUM

1. On the road from Warnemuende to Markgrafenhofde, near the marker indicating 1.5 km, are the houses No. 15 and 17. These two small two-family houses have been requisitioned by the Soviets and fenced in. The other houses in the vicinity are occupied by Germans.
2. A steel mast about 1.5 to 2 meters high and about 15 to 20 cm in diameter is fitted on top of house No. 15. This mast supports an iron rod, 6 to 7 meters long and 6 to 8 cm thick. This iron rod in turn is fitted with seven smaller iron rods, each of which is 1 meter long. These iron rods are about 1 meter apart. The set was only observed when it was not in operation, but the mast seemed to be rotatable since the entire rod system projected beyond the roof.
3. House No. 16 seemed to be unoccupied. However, a field cable ends there, and it is possible that other technical installations or equipment are installed in that house. Such installations, however, could not be seen because of the numerous trees there. *

* Comment. [redacted] it is inferred that the set reported here is a horizontally polarized dipole antenna for ultrashort waves which can also be used as a beam antenna. However, it may also be an ultrahigh-frequency station of the Soviet navy or an installation connected with the airfield. It does not seem to be a novel type of set but a standard ultrahigh frequency set.
